

### Mt. High Day Skiing + Chocolate & Wine Mt. High

**Snow aplenty!** Did you know there is already 7 feet of snow at Mt. Shasta? How much is 7 feet? Take a look at this photo, where the snow level is around 7 feet. Mt. Shasta actually had 8 feet but it has gradually settled and compressed down to 7.

So, if you are worried about whether there will be enough snow on our **Mt. Shasta trip**, no need to worry! We'll have plenty!

By the way, a ski trip is the best way to get to know other club members. and this is a short and sweet weekend trip.

Here's where you can find us on Mt. Hood:

At Meadows, find us in the cafeteria in the South lodge near the Schuss restaurant (aka The Hamburger Place) around 8:00-8:30 a.m. (That's on the slope level, which is 2nd floor). It's the left lodge as you walk up from the parking lot. See more in our Mid-week day trips at: <u>http://www.mthigh.org/Trips.htm#Mid-week\_day-trips</u>.

At Timberline, we usually meet on the ground floor of the day lodge, Meet inside if the weather is bad, or more likely meet outside, by the free ski check around **9:00 am**. We usually wait until at least 9 am for the Mt. Hood Express bus to arrive. Be there in full gear, ready to push off as soon as we are all there. See more about our weekend day trips at: http://www.mthigh.org/Trips.htm#Weekend\_day-trips.

There is life after skiing! So, come join us on Saturday, February 16, at our annual **Chocolate Party.** This year, we'll have some **wine tasting** in addition to c**hocolate desserts.** See page 2.

# How To Find Things on our web site

1. When was the last time we had a **Mystery** trip? And where to?

2. Which year did we experience that fantastic powder at Mt. Ashland?

3. What was the last time we had a **Ski Fair** in Portland?

4. What was the name of last year's Warren Miller movie?

5. How often should we **wax** our skis? This was covered in our newsletter but I don't remember what was said.

The answers to these and many other questions can be found on our web site. You will find them mostly on the NEWSLETTER, ARTICLES, and PHOTOS pages. The Newsletterss page is a good place to start.

And the blue bolded words above are your search words.

For example, let's find out when was it that we experienced that memorable powder day at Mt. Ashland. Here's how to do it:

- 1. Go to the **<u>NEWSLETTER</u>** page on our web site. Lots of text there!
- 2. Hit Ctrl-F (for the FIND command). Use "Ashland" as search word.
- 3. The very first occurrence of "Ashland" is found in March May 2012 issue of Lift Lines.
- 4. So, click on that newsletter link for issue #135-137. It summarizes ALL the ski trips we did that year.

Look at page 7. It's all about that memorable Mystery trip to Mt. Shasta and Mt. Ashland. It happened on **March 16 - 18, 2012**.

Hey, those are almost the exact same dates as this year's trip to Shasta and Ashland! This year, it's March 15 - 17, 2019.

You can use this method to find a lot of things on our web site.

# Navigating our web site

Many of our web pages are very long. Here are a few tips on how to naivgate them without too much scrolling, and how to find things.

1. **To get back to the top of the page**, hit the **Home** key on your keyboard. That's on a computer. Does anyone know how to do this on a smartphone?

2. To get back to our Home page (the Events Calendar page), click/ tap on either the "Home/Events" button at the top of the menu, or click/tap on the Mountain High logo at the top of the page.

3. To find out anything about any ski area in the west, such as how much snow they have, or what their hours of operation are, or to take a look at their trail map, on our web site, simply click on the "Ski Areas" button in the menu, and then click on the desired ski area.

Our web site is: **www.mthigh.org** 

There are at least 3 different levels of searching for things on the web or in your own documents.

**Search engines**, such as Google, Bing, DuckDuckGo, Yahoo, or AOL, will search the whole internet.

**Search a web site.** Some web sites offer an internal search of their own. You type in a search word, and the search will be performed on the entire web site, but not the whole internet. Our club's web site could use such a search. Does anyone know how to implement it?

**Find** is a command that can be used anywhere on a web page, or any document, such as within Word, a spreadsheet, or a PDF file. It will search only that document or that page and nothong beyond that. To invoke that command:

On **Windows** computer, hit **Ctrl-F** or click on Edit > Find & Replace.

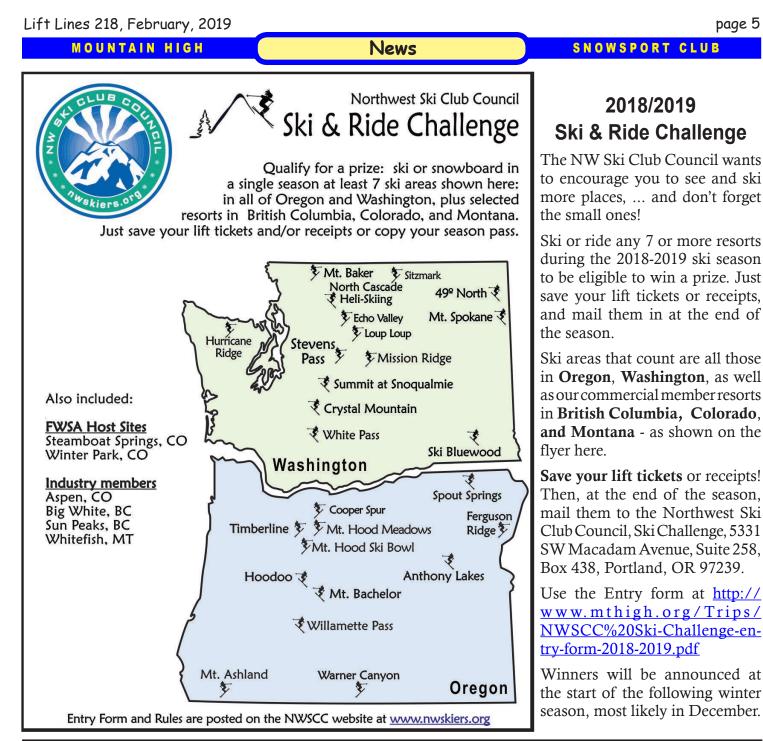

On Apple computer, hit Cmd-F

On **Android** smartphone, within a browser, tap on Menu > More > Find on page. The menu is often represented by 3 dots.

In **Chrome**(aweb-based computer), tap on Menu > Find on page.

**On iPhone**, the FIND command seems to be missing. At least it was missing in the earlier iPhones. Does anyone know if the latest iPhones have a FIND command for searching within a document?

SNOWSPORT CLUB

# **Charitable Fun Events**

Our club members have participated in most of these events in the past, and we hope to continue participating in most of them. Here are the dates and places. Click on each event name for more info.

# 1. Ski the Glade Trail Day, March 2, 2019 (Saturday).

A fundraiser for the Mt. Hood Museum and Cultural Center. A fun way to ski from Timberline to Government Camp, the way skiers used to do when there were no lifts. Except that we will now have unlimited shuttle bus rides from Government Camp up to Timberline. Also, breakfast and lunch are included. An you don't need a Timberline lift ticket. Click on the event name above.

# 2. Hope on the Slopes at Mt. Hood Skibowl, March 2 - 3, 2019 (Sat.-Sun.)

A fundraiser for the American Cancer Society. Ski all night. Break all records. The goal is to raise funds for the American Cancer Society before the event, and also to ski as much vertical as possible in a 24 hour period. For more info, click on the event name above.

### 3. Ski to Defeat ALS at Mt. Hood Meadows, March 9, 2019 (Sat.)

A fundraiser for the ALS Association to help those suffering from ALS, which is also known as Lou Gehrig's disease. Just a day event. The goal is to raise funds for the ALS Association before the event, and also to ski during the event. To see more info, click on the event name above.

# 4. Oregon Cancer Ski Out at Meadows, March 10-11 (Sun.-Mon.)

A fundraiser for the local cancer institutions. A two-day event for skiers and snowboarders that combines fun, competition, and fundraising with a unique racing format designed to let even novice skiers or snowboarders participate in the fight against cancer. Each year, teams of 5 compete for prizes at Mt. Hood Meadows, in a race that rewards consistency and teamwork rather than individual speed. Click on the event name above.

# 5. Ski-A-Thon at Bear Mountain, CA, March 9 (Sat.).

A fundraiser for the US Adaptive Recreation Center (USARC). USARC works with schools, hospitals, rehabilitation centers and recreation departments to serve children and adults with all types of cognitive or physical disabilities. A group of volunteers from a USARC club, led by Sara Rosell, Operations/Outreach Coordinator for the USARC, will serve as Bid Runners at the 2019 FWSA Convention in Indian Wells, CA this June 2019. Click on the event name above for more info.

# Knee injuries - the most common ski injury

These days, most skiers wear helmets to protect their head. Head injuries account for about 2.6% of all skiers' injuries.

But knee injuries are much more frequent, adding up to 35% of all snow sport injuries. You are 13 times more likely to injure your knees than your head. So, why not wear knee braces for prevention?

Knee braces are like helmets for your knees. They are made of soft materials with only a

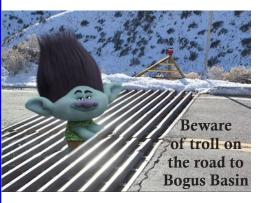

couple of metal parts, one on each side of your knee, to help stabilize it. They can be worn on top of your long johns (your base layer), but under your ski pants, so they are almost invisible.
